CAREER OBJECTIVE

Aspiring Front-End Developer with a strong foundation in HTML5, CSS3, JavaScript, and React.js, seeking an entry-level role to kickstart my career in web development. Skilled in creating responsive, single-page applications (SPAs) with clean and user-focused UI/UX using frameworks like Bootstrap and Tailwind CSS. Proficient in modern tools including Git, GitHub, and Firebase for version control and basic real-time functionality. Eager to learn, collaborate, and contribute to innovative web projects in a fast-paced development environment.

TECHNICAL SKILLS

Languages::	HTML5, CSS3 and JavaScript
Frameworks/Libraries::	React.js, Bootstrap and Tailwind CSS
Tools & Platforms::	Git, GitHub, Firebase and VS Code
Other::	Responsive Web Design, REST APIs, Figma to Code Conversion

Ekashila Junior College MPC GPA: 7.2	Warangal, Telanagna. June 2014 - June 2016
ZPHS SSC GPA: 8.5	Warangal, Telangana - June 2014

PROJECTS

Rentify – Online Property Rental Platform *HTML5, CSS3, JavaScript, Firebase (Firestore & Auth) and Bootstrap*
<https://mdrafi-git-hub.github.io/Rentify-Website/Index/index.html>

Built a responsive single-page web app for property rentals with separate dashboards for users and owners. Used Firebase Firestore to perform CRUD operations for property listings and user data. Implemented user login and signup using Firebase Authentication. Added features like property bookmarking and rental requests. Designed a mobile-friendly interface with clean UI/UX using Bootstrap.

Digital Profile – Personal Portfolio Website *HTML5, CSS3, JavaScript, React and React Bootstrap*
<https://mdrafi-git-hub.github.io/Rentify-Website/Index/index.html>

Developed a fully responsive personal portfolio website to showcase front-end development skills and featured projects. Designed a clean, user-friendly interface with smooth navigation and optimized UI/UX. Included project previews, contact form, and resume download functionality. Focused on responsive design, performance, and accessibility across devices. Deployed the website using GitHub Pages (or Netlify/Vercel) for easy access and professional presentation.

Business Website – Sudha Tours and Travels *HTML5, CSS3, JavaScript and Bootstrap*
<https://sudhatoursandtravels.com>

Built and delivered a responsive website for a travel agency client to promote tour packages, services, and contact details. Developed a clean, user-friendly interface with smooth navigation and mobile-first design. Integrated custom sections for gallery, services, and inquiry form to improve client engagement. Focused on performance, responsive layout, and SEO-friendly structure. Delivered the project independently as a freelance developer.

CERTIFICATION

Simplilearn | SkillUp
Front End Development.

Jun 2025 - Present

- Successfully completed Simplilearn's certification in Introduction to Front End Development, covering essential skills in HTML, CSS, JavaScript, and responsive web design.
